Manuguru, Badradri Kothagudem dist, Telangana, India

Summary

"Detail-oriented CSE student (Graduating 2027) with a strong foundation in coding and a passion for software Development. Driven by a 'strong-minded' approach to technical challenges, specializing in iterative learning and meticulous analysis to build robust, efficient software solutions."

Skills

Programming

Python, JavaScript, SQL

Frontend

HTML5, CSS3, React Native, JavaScript

Database

MongoDB, SQL, Database Design

Version Control

Git, GitHub

Backend Development

Node.js, Express.js, RESTful APIs

Software Development

Object-Oriented Programming (OOP), Data Structures & Algorithms

Strengths & Attributes

Analytical Problem solving: Turning "overthinking" into a meticulous review process that ensures high-quality, bug-free code.

Team Collaboration : Collaborated effectively in team-based projects, contributing to planning, development, testing, and successful project delivery.

Communication Skills : Demonstrated strong verbal and written communication skills through technical presentations, documentation, and collaborative project discussions.

Academic Projects

- **Online Book Website :**

Technologies: React, Node.js, MongoDB, HTML, CSS, Visual Studio, ChatGPT

Developed an online book reading website with a team of five members for an IBM Hackathon and secured **3rd place**. Built a responsive user interface using React, HTML, and CSS, with Node.js and MongoDB for the backend. Utilized ChatGPT to assist with development and debugging.

- **Smart Feedback System:** Developed a Smart Feedback Collection And Sentiment Analysis System using HTML, CSS, JavaScript for frontend and Python for backend
